

This preset pack file contains the files from a studio session with Grammy award-winning producer and guitarist Larry Mitchell. You'll find three User Cab IR files (.syx) plus nine presets and preset bundles for both the Axe-Fx II and the AX8. The AC20 and Deluxe IRs are for use with the AC20 and Deluxe presets. All other presets use the "BRIT" Cab -- a 4x12 loaded with Greenbacks. We recommend using AXE-EDIT or AX8-EDIT to install the bundles. The application will ask you to select a location to store each of the required presets and cabs.

Here's some video of our session together:

ENJOY THE PRESETS AND CABS!
